

PartSource International saves you TIME

How does PartSource deliver components faster?

OEM Parts Ordering Process:

The OEM creates new machines every year. Each part ordered must be checked by Engineering staff to see if the part has changed since your machine was originally purchased. You deal with at least 6 offices and about a dozen steps each time you order one part! **That's more downtime . . . and that's money lost!**

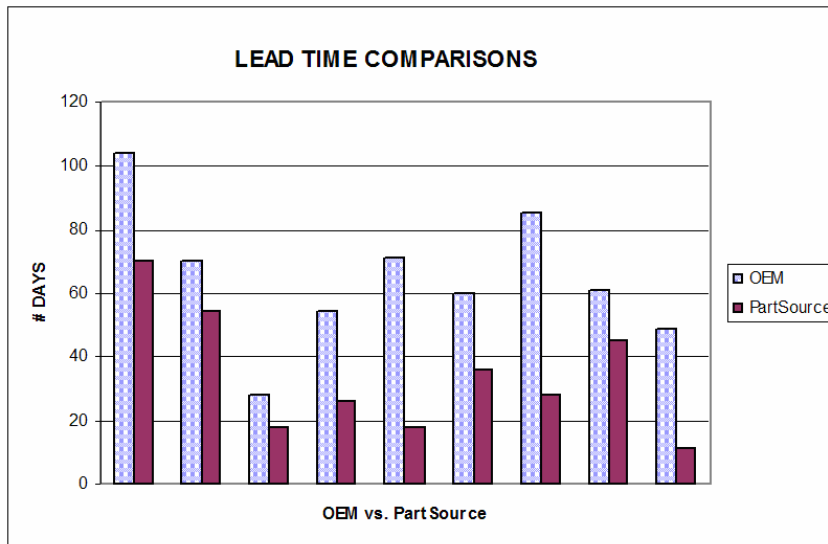

vs.

PartSource Ordering Process:

Less Steps = Faster Turnaround = Less Downtime

Recently, a PartSource customer compared 9 items purchased from PartSource that they had previously purchased from the OEM and shared their finding with us. Here is what they found:

OEM Total Days to Deliver: 524 PartSource Total Days to Deliver: 282

PartSource proved to be 44% faster on these items.
